The Natural Singer™

The Natural Singer workshop offers powerful personal and musical breakthroughs to people from all backgrounds. Whether you consider yourself “tone-deaf” or have been singing all of your life, you will find the results simply astounding. Your voice will resonate with authentic messages – unblocked and renewed with deep intention. You’ll harmonize and learn to breathe fully in an atmosphere of unconditional support. As you become more fluent singing with your true voice, you’ll awaken your innate ability to deeply move others.

Come and defy your inner critic. Sing past your fears. The results are transformational and a celebration of community. You can experience magical power in the whisper of a lullaby, triumph over old pain on the backbeat of a blues, or celebrate your creative voice with a jazz riff. Why keep quiet?

Whether you just want to sing your kids to sleep at night or express yourself more fully in the world, you’ll find yourself having fun and singing your heart out like never before!

“I watched miracles happen before my eyes. It was moving, intense, and educational.”
